About Me

Creative Problem-Solver With A Strong Foundation In Modern Web And Mobile Development. I Thrive On Turning Ideas Into Functional, User-Friendly Solutions.

Hi, I'm Dina, a passionate software developer with a knack for creating intuitive and impactful digital solutions. With expertise in modern technologies like JavaScript, React, Node.js, Html, Css and Figma. I bring ideas to life through clean, efficient code and user-focused designs. My journey in tech has been driven by curiosity and the desire to solve real-world problems. I've developed diverse projects ranging from mobile apps to dynamic web platforms, and I'm currently honing my design skills to create visually stunning and functional portfolios. When I'm not coding or designing, I enjoy playing basketball and staying inspired by the latest trends in tech and design. Let's build something amazing together!
